

Every Child A Reader!

This is one of our key curriculum drivers. The importance of reading for children cannot be underestimated.

Children who read:

- have a larger more extensive vocabulary
- perform better academically
- develop empathy
- gain a deeper understanding of the world
- have better concentration levels

The benefits of reading are endless. Regular home reading gives children a head start in life and helps them become life long readers.

10 mins a day makes such a difference!

Reading Rewards

We ask that your child reads at least 3 x per week at home and that parents/carers record this in your child's Reading Record. This allows us to track children's reading and reward them, to offer a little extra encouragement to get them started on a path to reading success.

For many children, once an established reader, reading becomes its own reward but we recognise that early readers and reluctant readers benefit from external motivation.

Rewards

- Children's Reading Records are checked EVERY FRIDAY
- If they have completed 3+ home reads they receive a sticker on their reading chart and a raffle ticket for our termly draw
- Children work towards bronze, silver and gold awards (10 stars per level)
- If they fill their chart they can select a book from our rewards cabinet to keep!

1st Prize in our termly raffle is a Kids Kindle!
